SIG FYI BACKGRD

Pelletier 1ST draft for new Productivity prod. Sheet (requested by SIG per J.T.)

NEW STATE-OF-THE-ART PRODUCTIVITY SOFTWARE

COMMODORE 3-PLUS-1

Integrated software at a price you can afford ! Commodore 3-PLUS-1 features an integrated Wordprocessor, File Manager and Spreadsheet with Graphics. Data can be transferred between the spreadsheet, wordprocessor and file manager quickly and easily. With the new Commodore 3 PLUS-1 you can use the spreadsheet for your 'what if' calculations and incorporate any portion of the spreadsheet into a memo or report produced on your word processor. Create graphs representing row or columns of your spreadsheet. Create mailing lists with the file manager and merge them with form letters.

The Commodore 3-PLUS-1 will be built in or on cartridge for the new Commodore 264 and on cartridge for the number one selling Commodore 64.

COMMODORE B-GRAPH

B-Graph is a powerful, full featured business graphics and statistics package for the Commodore 64. With a few keystrokes, you can create colorful pie charts, 3-dimensional bar charts, histograms, stacked bar charts, and line and area graphs. Great for slide presentations or briefings. A versatile graphics editor is also provided for fine tuning. Advanced statistical analysis includes standard deviation, min, max, mean, chi square, T test, linear regression and more.

COMMODORE TELIGRAPHICS

Commodore Teligraphics offers mainframe videotext and graphics capabilities to the microcomputer world. With Teligraphics, you can create and transmit pictures, text and business graphics from one Commodore 64 to another Commodore 64 or to larger computers. With Teligraphics, you can also dial into the popular telecommunication services like Compuserve and upload or download data. Available on the Commodore 64, Teligraphics is compatible with the Canadian Telidon videotext standard.

COMMODORE EASYCALC 264

Commodore EASYCALC 264 is a fast, comprehensive electronic spreadsheet available built-in or on cartridge for the Commodore 264. With precision up to 13 decimal places and advanced features such as bar charts and if...then...else formulas, Incredi-Calc combines speed with ease of use. Great for home budgets, sales projections, income statements, loan analysis, and much more.
